# APACHE . . . Field Tested Tough

The U.S. Army/Hughes AH-64A "APACHE's" on-time, on-schedule completion of the Army's Operational Test II milestone proved its troop compatibility with hands-on operation by Army personnel.

During this final demanding three-month long test, in hot (temperatures up to 114°), dusty conditions, the AH-64A demonstrated outstanding mission reliability. With all maintenance performed by Army personnel, maintenance-man-hours per flight-hour and other operational characteristics

significantly bettered the stringent requirements for the Army's new anti-armor system.

In OT II Army pilots logged over 400 flight hours in day/night operations of AH-64A's, bringing development flight test time to over 3,200 hours. The APACHE... fully tested... transitioning to production.

## Transitioning to Production

## ARMY AVIATION ASSOCIATION

1 Crestwood Road, Westport, CT 06880 — (203) 226-8184

*The title of a recently cancelled TV series just about describes what's happening within AAAA today. The TV show was entitled "Moving On."*

*We've just concluded what most attendees, in retrospect, would describe as the Association's "Best Ever!" national convention — one that simply will be very difficult to top. The late April 1982 St. Louis gathering was most rewarding professionally in addition to being exceptionally enjoyable socially. The '82 turnout virtually doubled all previous Ass'n records having 660+ paid registrants, 128 military and industry exhibit booths, and 937 Awards Banquet attendees. Moving on? Yes, we're looking ahead to April 1983 and an even bigger and better national gathering.*

*The three-day "national" followed on the heels of the largest two-day Product Support Symposium ever sponsored by the Lindbergh Chapter in St. Louis. In early April the Monmouth Chapter sponsored a record-breaking "Aviation Electronics Symposium" and shortly before that almost 1,000 members, wives, and children attended the USAREUR Region's 1982 Garmisch Convention. Moving on? The large, widespread professional gatherings confirm it.*

*Lastly, during the a recent six-month period, more than 1,800 new members joined the Association raising our total membership over 10,000 . . . This major organizational milestone tells us that we are beginning to reach the "grass roots" of Army Aviation and must continue our ongoing effort to first determine and then implement the desires of all segments of our membership . . . A good phrase . . . "Moving On" . . . That's exactly what AAAA is doing.*

**John W. Marr**  
Colonel, USA (Ret.)  
President, AAAA

# A closer look at the Army's new vision:

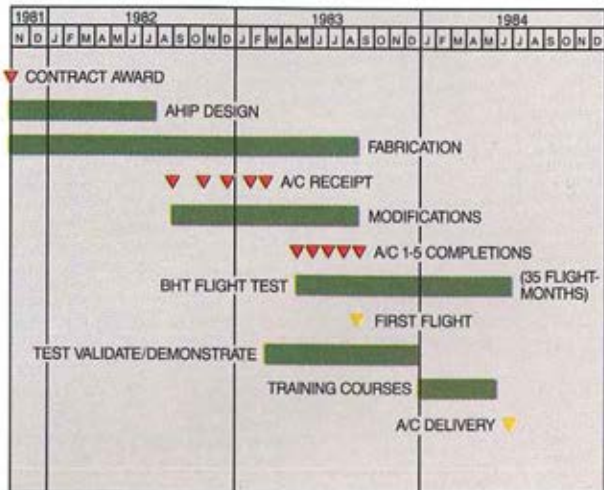

From the beginning, Bell has been confident that innovative engineering, proven performance records and systematic planning would help provide new eyes for the Army — a near term scout that will outperform all contemporary helicopters. And now there's proof.

Bell looks forward to delivering the modern, advanced technology Near Term Scout Helicopter. Bell's multi-mission system 406. Take a look at what's ahead.

For more information on Bell's progress write to Ray Swindell, Director U.S. Government Marketing, Bell Helicopter Textron Inc., Dept. 680, Box 482, Ft. Worth, Texas 76101.

## BELL LOOKS AHEAD TO DELIVERY.

# The Outstanding Aviation Unit

**M**Y friends and comrades asked me why I was here this week. My response, in all honesty, was I'm Art Kesten's aide and I was instructed by him — quote — that I have five minutes to summarize the conference, challenge the audience, and make presentations.

If we had just listened to our husbands, friends or wives if they attended, the basic theme of this convention was modernization of the Army force — modernization of the Army Aviation community. If you would believe all the presenters and not look at the federal budget, you would now be faced with an absolute hemorrhage of new equipment. Probably not so, but we do have an immense amount of new equipment coming in.

“ . . . out in front . . . ”

The era right now is extremely reminiscent of the decade of the late '50's or early '60's. I would say to you once again: the Army Aviation community is out front of the rest of the Army.

Our challenge now is to produce the doctrine and from it to do the training to insure the supremacy of the U.S. Army Aviation community throughout the world. And I would say the challenge is not just the trained aviators and those that make up aviation assets, but to indoctrinate the rest of the Army. Everyone cannot be a trained aviator but every member of our Army needs to be trained in aviation.

We must cope with all sides of that problem. We need professional soldier-aviators and within the system that they serve, we must seek, demand, and produce stability.

Tonight, we're going to pay tribute to the most professional Army Aviators in the world, our U.S. Helicopter Team. I

have a letter from President Reagan that I'd like to read to you. It's dated April 15th, this year, and our President writes as follows:

"I'm very proud to extend my congratulations to the members of the U.S. Helicopter Team for winning the Army Aviation Association of America's **Outstanding Aviation Unit Award**. This special award recognizes your achievement as the first American team to win the World Helicopter Championship in Poland, 1981. I join all Americans in commending you for a job well done.

"I especially want to congratulate **Major Roy Mann, CWO George Chrest**, and all the military and civilian members of the team. Your competitive spirit, dedication, and willingness to train so hard for this difficult competition exemplifies the qualities necessary to become the best in the world.

"You have my best wishes for continued success and safe passage in all that you do. Sincerely, Ronald Reagan."

**"Did you ever expect less?"**

If **President Reagan** were here tonight, I believe I could look him in the eyes and say, "Mr. President, did you ever expect less?" When challenged we have always risen above the challenge and proved to the world that we will not be second best.

We Americans live by three basic tenets. First, to be born free is an accident. Second, to live free is a responsibility and, third, and more importantly, to die free is an obligation. I have never known a soldier, past or present, black, white, yellow, red, brown, male or female, who wasn't prepared to do that to preserve our society.

Freedom is something that we value more than life itself. I think we should all

pray that the American citizenry continues to hold these things above all others.

The rest of the world must someday get our message. They must learn that we really believe these things. After all, we have been sending this message to the world since the 4th of July, 1776.

Our helicopter team delivered this message once again, this time behind the Iron Curtain in showing what our society can produce — the finest the world has.

Now, it's my privilege to present to them the Army Aviation Association **Outstanding Aviation Unit of the Year Award**. To receive it tonight are **Major Roy E. Mann and Sergeant Major John P. Traylor**.

**Above: Shown holding the "Outstanding Aviation Unit Award" trophy, l. to r., are MAJ Roy E. Mann and SGM John P. Traylor, Coach and 1SG of the US Helicopter Team respectively; COL John W. Marr, AAAA President (partially hidden); and LTG M.C. Ross, Deputy Commander, USA FORSCOM.**

**Remarks of Major Roy E. Mann, Coach, U.S. Helicopter Team:**

On behalf of the entire Team I accept this AAAAA award with great pride. We went out with a 100% effort to win the **World Helicopter Championship**. Getting this award is just a bonus and we thank you.

Secondly, as I said at my Convention

presentation on the Team yesterday, this was — in all respects — a total Army Aviation community effort. It was indeed an honor to be a part of it.

### The people along the way

As I look back over the program, the people we met looked like a list of "Who's Who in Army Aviation." I'd like to cite a few of those people and units tonight. If I overlook anyone, it's not because I mean to.

I'll start with **COL Bob Bunting**, **COL Paul Wenzel**, **BG Dick Kenyon**, and **COL John Zugschwert**; **Generals McNair**, **Brady**, and **Mackmull**; **Mr. Joe Cribbins**; and every man in the 101st Airborne Air Assault Division. And there were three ADC's, each one of whom we got to meet personally on a number of occasions: **Generals Ivey**, **Bethke**, and **Cooley**.

And there was **COL Ted Allen** and **COL Rod Wolfe**, Commanders of the 101st Aviation Group. Also, **LTC Robert Young**, of the 2/17th, our host unit at Fort Campbell; **LTC Allen Cornell**, of the 5th Transportation Battalion, who gave us some very fine aircraft to take to Poland for two weeks. And also there's **General Don Parker**, **General Vessey**, and **General Meyer**, who in early May finally signed that last decision paper that said "Go do it!"

A host of others to thank, to include many land owners around Ft. Campbell and airport owners who supported us in our training program as we moved all over the country looking for new navigation sites to keep our training program fresh.

And then I've got personal thanks to express to two young officers who have **(OUTSTANDING/Cont. on Page 52)**

**BELOW: Shown after the 1982 Awards Banquet are some of the U.S. Helicopter Team principals. They are, left to right, CW2 and Mrs. George D. Chrest, SGM John P. Traylor, MAJ and Mrs. Roy E. Mann, and MAJ Bronislaw Maca, Exec Off.**

## The **MonoHUD** Head Up Display VISIBLE SUPPORT FROM MARCONI AVIONICS

A new member of the Marconi Avionics head up display (HUD) family is now available in the MonoHUD miniature head up display. MonoHUD offers a full range of display options based on a concept proven in extensive flight trials.

MonoHUD offers a solution when cockpit constraints make a conventional HUD or roof-mounted sight inappropriate; it can function as a simple weapon aiming sight or provide complete fire control solutions with a weapon aiming computer. MonoHUD can also be designed to have a video capability for use as a night vision aid.

Lightweight and flexible (weighs only 9 pounds), MonoHUD allows installation in almost any cockpit without major impact to existing instruments. The 3-inch eye relief is ideal for terrain following and provides up to 30° instantaneous field of view. Like the frames of your eyeglasses, the MonoHUD frame is nearly invisible, allowing you maximum visibility. MonoHUD reduces pilot workload by allowing the pilot to fly head up.

TERRAIN EVALUATION  
WEAPON AIMING  
FIRE CONTROL  
NIGHT VISION AID

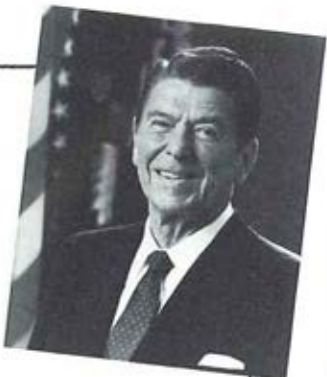

MONOHUDI! Lightweight, flexible, easy to install, low cost.

# MARCONI AVIONICS

THE WHITE HOUSE  
WASHINGTON

April 15, 1982

I am very proud to extend my congratulations to the members of the United States Helicopter Team for winning the Army Aviation Association of America's Outstanding Aviation Unit Award.

This special tribute recognizes your achievement as the first American team to win the World Helicopter Championships in Poland in 1981.

I join all Americans in commending you for a job well done. I especially want to congratulate Major Roy Mann, CW2 George Chrest, and all the military and civilian members of the team. Your competitive spirit, dedication, and willingness to train so hard for this difficult competition exemplify the qualities necessary to become the best in the world.

You have my best wishes for continued success and safe passage in all that you do.

Sincerely,

*Ronald Reagan*

## McClellan Aviation Safety Award

**M**R. President, now you've said everything in your introduction that I was prepared to say. These programs are always very well coordinated ahead of time; we usually coordinate them up at the head table as we're moving along here.

But, very seriously, for those of you who did not hear **COL Marr's** remarks, I am not **Howard Haugerud**. I would not aspire to be so slender or to be so youthful. My portly frame and my balding head would not approach the eloquence of **Howard Haugerud**. He has graced our podium so many times in the past that I feel humble to be asked to take his place.

When I looked at the program I noticed that he was the only individual given nine

minutes of speaking time. All of the senior General officers up here get three or four minutes, perhaps, and I asked **Art Kesten** how this comes to pass and **Art** indicated that if you don't give **Howard** nine minutes he takes it anyway.

### One of the finest ever!

So, really, we've heard a lot of good news and bad news at this very, very fine national convention. The bad news is **Howard** is not here this evening. The good news is I will not take nine minutes.

This is, perhaps, as **John Marr** has already said, one of our finest annual awards banquets ever. The meal was exquisite. **Joe Cribbins** just leaned across to me a few minutes ago as we began the meal, and he said "**Carl, this is ab-**

**BELOW: Sergeant First Class and Mrs. Gerald L. Johnson pose with the 1981 James H. McClellan Aviation Safety Award trophy after the AAAA National Awards Banquet. The award ceremonies took place in St. Louis on April 24.**

**ABOVE—Sergeant First Class Gerald L. Johnson, right, accepts the 1981 James H. McClellan Aviation Safety Award trophy from Major General Carl H. McNair, Jr.**

ARMY AVIATION/MCCLELLAN AWARD

solutely the best vichyssoise I have ever eaten." And I said "Joe, I absolutely agree with you. Mine is tremendous." Art leaned around the corner to both of us, and he said, "I don't know about you guys — but mine is cold!"

But I am indeed honored to represent **Howard Haugerud**. I would love to be able to share with you his wit and his cynicism. However, he's a Democrat and I'm a Republican and he has always shared with us a great deal of wisdom

from the Washington scene. But, because I do like my job and my expiring career, I will keep those remarks to myself.

### A unique first

The **McClellan Aviation Safety Award** is, again, one of our most prestigious awards in Army Aviation, named after the son of the late **Senator McClellan** — and, in the 24 years that it has been awarded, this evening is the first occasion on which it is being awarded to one of our senior non-commissioned officers who has given so much to the safety of Army Aviation in his 25 year career.

That individual is none other than **(McCLELLAN/Continued on Page 45)**

# When you really need to "talk," talk to us about Collins HF communications.

Since 1933, when a Collins HF radio was used to communicate with the United States from Antarctica, the Collins name has been synonymous with HF: Collins, first to perfect single-sideband technology and the mechanical filter. Collins, first to introduce "automatic tuning." Collins, first again with the application of microprocessor technology to HF, making equipment simpler, more reliable and more economical.

Today, the Collins Telecommunications Products Division is the world's leading supplier of HF equipment, much of it for individuals and organizations just like yours. This means we can bring a wealth of experience to bear on your HF communications problems. Tactical, strategic, secure, commercial — we can do the complete job. Ours is a total HF capability.

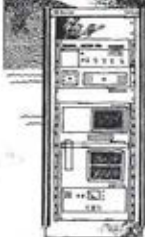

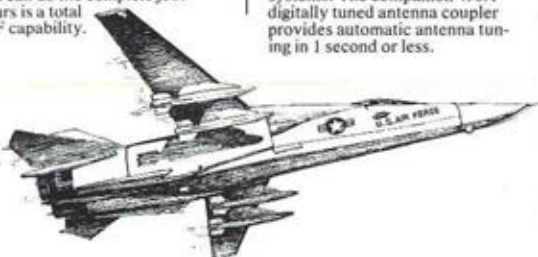

## AN/ARC-190/728U Airborne Communications Systems

As the latest addition to the family of Collins airborne HF equipment, the all-solid-state AN/ARC-190/728U offers 400-watt peak and average output. Built-in microprocessor provides the control flexibility and speed needed to operate with scanning-selective call and remote frequency management systems. The companion 490A digitally tuned antenna coupler provides automatic antenna tuning in 1 second or less.

## 718U Communication Systems

A highly adaptive family featuring commonality of components and consisting of a convertible manpack/vehicular/base station system, a vehicular system, base station systems plus airborne systems. General characteristics include: Frequency range, 2 to 30 MHz in 100-Hz steps. Fully synthesized. Automatic tuning. Remotely controllable. Solid-state. Modular. 100 or 400 watts. All systems are easy to operate and can be tuned and ready to use in an average of 4 seconds.

## HF-580/581 Maritime Systems

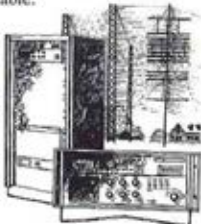

Fully synthesized, 1.6 to 30 MHz, 100-channel, front-panel programming with automatic tuning, ARQ and remote control make the new HF-580/581 Series

ideal for reliable maritime operations. Both the 150-watt HF-580 and the 1000-watt HF-581 offer SSB/AM/CW/FSK modes.

#### AN/PRC-515 HF Manpack Radio

A 20-watt packet set's small, lightweight and easy to operate, even while wearing gloves. Fully automatic antenna tuning. Low power consumption. Proven field performance. Arctic-desert-tropics use. 280,000 discrete channels. Large selection of options adapts it to field use, jeep and truck mounting, airborne and base station. 100- and 400-watt amplifiers available.

#### HF-80 Communication Systems

Anywhere communications setups are difficult, this family of systems gives you quality, performance and long-range HF radio capability in a range of products that can grow with your needs. It includes receivers, 1-, 3- and 10-kW transmitters, 1-, 3- and 10-kW transceivers — each capable of manual, FSK remote or computer remote control. Advantages include low-cost installation, low life cycle costs, high parts commonality and easy maintenance.

#### HF-280 Series Channelized Transceivers

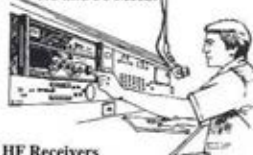

Professional, long-range and cost-effective, an HF-280 Series Transceiver is a complete HF station in one unit. For mobile or fixed applications, the transceivers offer 125 watts output and operate from either AC primary power at 110/220 volts or 12-volt DC. Choose either 6 or 20 channels. Both offer built-in speaker with microphone, a full 1.6- to 30-MHz frequency range and programmable preset channels. Ideal for commercial and civil government needs.

#### Collins KWM-380 and HF-380 Transceivers

The new Collins KWM-380 transceiver continues the Collins heritage for quality amateur equipment. A fully self-contained station, the KWM-380 offers built-in AC/DC power supply, speaker and internal split frequency VFO function. Fully synthesized, with microprocessor controlled tuning gives frequency stability in four tuning rates down to 10 Hz with no bandswitch.

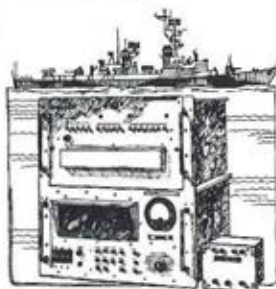

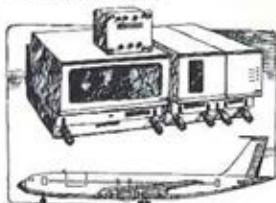

The new HF-380\* general coverage transceiver is for users authorized to transmit between 1.6 and 30 MHz.

#### HF Receivers

A series of general purpose radio receivers for manual or remote controlled systems. The

851S-1, the newest member of the receiver family, can be configured to meet specified customer requirements by selecting optional plug-in kits.

#### HF-121/122 Transceivers

High-performance HF transceivers optimized for tactical data applications. Complementary radios fill both shipboard/transportable requirements (HF-122, AN/URC-97) and airborne (HF-121, AN/ARC-512) with high reliability and module commonality. Operating features include remote control, rugged PA and selective HF receiver front-end filtering for collocated operation. They cover the 2- to 30-MHz range in 100-Hz synthesized steps in all standard voice and data ISB and SSB modes.

For more information, contact a Collins representative or Collins Telecommunications Products Division, Rockwell International, Cedar Rapids, Iowa 52498. 319/395-3553 or 2909. Telex: 464-435.

\*Available only for authorized users.

## SELF-DEPLOYABILITY AHEAD

ST. LOUIS, MO—TESTING IS UNDERWAY AT WEST PALM BEACH, FLA., ON THE ARMY'S NEW EXTERNAL STORES SUPPORT SYSTEM (ESSS) FOR THE UH-60A BLACK HAWK HELICOPTER. THE ESSS CONSISTS OF WINGS MOUNTED ON EACH SIDE OF THE AIRCRAFT WHICH CAN CARRY FOUR AUXILIARY FUEL TANKS OR A VARIETY OF OTHER EXTERNALLY MOUNTED TACTICAL EQUIPMENT. TWO 450-GALLON FUEL TANKS ARE LOCATED ON THE INBOARD WING STATIONS, AND TWO 230-GALLON TANKS OUTBOARD, RESULTING IN A SIGNIFICANT EXTENSION IN RANGE CAPABILITY. SIKORSKY AIRCRAFT IS CONDUCTING THE TESTS UNDER CONTRACT WITH USA ISARCUM, ST. LOUIS, MO. THE ESSS TESTING IS SCHEDULED TO BE COMPLETED BY MARCH 1983.

## McCLELLAN AWARD

(Continued from Page 12)

**Sergeant First Class Gerald L. Johnson**, the non-commissioned officer in charge of the tri-service **Aviation Life Support Equipment Retrieval Program**. He has made many, many significant safety contributions to our Army over his years of service. But if I might briefly summarize, he has, of late, channeled his efforts into the training of personnel in the use and importance of life support equipment.

### A constant lecturer

He was responsible for implementing changes in the chin strap of the SBH-4 helmet, for upgrading the visors of all our helmets, and for improving the safety of our individual crew members. He has worked directly with the Aviation Officer in the Office of the Surgeon General of the Army to upgrade our first aid packets in all of our survival kits.

During the past year alone his training schedule included over 115 hours of platform instruction and 30,000 miles of travel in making presentations to National Guard personnel throughout the U.S.; he has taught in the ALSE schools in our various CONUS armies; and he has presented lectures on helmet retrieval programs to the Aviation Safety Officers Course and to our Flight Surgeons Course at Ft. Rucker.

Throughout the Army and to many of allies **Sergeant Johnson** is known as "Mr. Helmet", and many of our aviators today and tomorrow will owe their safety to his contributions.

#### FIRST TIME EVER!

For the first time in 24 years of AAAA Awards Luncheons and Banquets, all seven individuals and units who received National Awards were from CONUS locations.

I think it is very appropriate to recognize the words of **Sergeant Johnson** when he was advised of his nomination for this very prestigious award. He indicated that some people dream of fortune and some dream of fame. But he said that he had dreamed of one day receiving the **James H. McClellan Aviation Safety Award**, and if I might quote from his interview with the **Enterprise Ledger** on being notified that he had been selected by our Association for this award, he said, "I've been envious of past recipients since I began work in aviation safety in 1969. I've cherished the hope and dreamed the dream of one day standing at the Quad-A meeting and receiving the award. I consider this award to be the capstone of my 25 years of military service."

**Sergeant Johnson**, this is your night, your award. Congratulations to you and certainly to your lovely wife, **Martha**, who is with us here tonight.

### Remarks of Sergeant First Class Gerald L. Johnson, USA Aeromedical Research Laboratory, Ft. Rucker, AL.

Ladies and Gentlemen of Quad-A, I truly thank you. **General McNair** just gave my speech, but seeing how he is my boss, I guess it's okay.

I've always wondered what happened to old NCOs when they die, and now I know. They just come up to a Quad-A meeting. I don't think there are as many stars in heaven as there are here tonight in this room.

They only gave me one minute, so I don't want to waste a whole lot of everyone's time. I am definitely honored to receive the **James H. McClellan Award** and it is the capstone of my career. I will never leave aviation safety; I'll be with it until I die. I sincerely and frankly believe that one life saved is worth all the time and the money that's been spent in preventing accidents. Thank you again, ladies and gentlemen.

# The DAC of the Year Award

IT'S my privilege to make the **Outstanding Department of the Army of the Year Award** presentation this evening. We had trouble writing this up. There are a lot of things that we do in Army Aviation that are very sensitive, and we really can't talk about it. So I think it's appropriate that I read this citation just so I don't get myself in any difficulty.

I want to recognize **Mr. Michael J. Hoffman**, who this evening will receive the AAAA's **Department of the Army Civilian of the Year Award** for his outstanding performance of duty as an aerospace engineer for special and sensitive Department of the Army aviation projects.

## Many significant modifications

For the past year, **Mr. Hoffman** has been responsible for engineering, prototyping, and the application of over 60 significant special aircraft modifications that have served to increase the range of helicopter operations; extended aircraft

night vision equipment capabilities; configured helicopters for accurate, long-range navigation; produced internal aircraft refueling systems; and developed special pilot rescue devices.

The scope of this work parallels that associated with major product improvements normally requiring anywhere from two to five years to complete. Under **Mr. Hoffman's** guidance some of these projects were completed in as little time as two weeks, which shows you just what American ingenuity can do if it's given the license to do it.

**Mr. Hoffman's** professional achievements are of such significance as to have caused a dramatic improvement and enhancement in Army Aviation capabilities, improvements that have served our country extremely well.

**Mr. Hoffman** has been a credit to himself; to the great city of St. Louis where he was born, raised and educated; to Army Aviation; and to the Department of Defense.

**BELOW:** Shown at the April 24 AAAA Awards Banquet head table are, l. to r., BG Ellis D. Parker, MG Harold I. Small, SFC Nancy J. Reutner, MAJ George B. Faulhaber, MG Charles Kiefner (partially hidden), and Michael J. Hoffman.

ARMY AVIATION/DAC OF THE YEAR AWARD

**REMARKS OF MR. MICHAEL J. HOFFMAN, USA TSARCOM:**

General Konopnicki read off an awful lot of work we did in the past year. My name is on the award, but the little people made it happen, and we have about 12 of them. Two of them couldn't be here tonight because they're on a project on the east coast all weekend.

But the little people make it happen — Little old ladies in tennis shoes getting parts at midnight. Little things like that.

We have a lot more work to do. We want to keep the operator happy, and I

A justifiably proud Michael J. Hoffman, left, of the U.S. Army Troop Support and Aviation Materiel Readiness Command, receives the "DAC of the Year Trophy" from his equally proud commander, MG Emil L. Konopnicki.

think we have. And we're going to keep going. When we show up on your doorstep, something's up. We've got a hard job to do. And we've gotten tremendous cooperation from all of you. You know who you are, and who I'm talking to. But we've got to keep it up, and we're doing good things. Thank you very much.

# The Outstanding RC Aviation Unit

**B** EING here in the official capacity of the Adjutant General of Missouri, I would forego the welcome (from the State) because I know that you've already had it, but certainly I hope you've had a good time in Missouri and I want you to know that we're happy that AAAA is here to have its 25th Anniversary.

I think that the 717th, which you're going to hear more about as this ceremony progresses, exemplifies the contribution and dedication that all of the Reserve Components represent in this total force structure of which we are all a part.

When **General Mickey Walker** asked me to be here tonight to make the award to these people as the National Guard Bureau representative, I was extremely proud because it isn't often that I'd have the opportunity to stand before a group of distinguished aviators, such as yourselves, and talk about the Reserve Components.

## The Reserve contribution

I hope you've noticed — I'm a National Guardsman, true blue. But I'm talking about ALL Reserve Components because we truly believe that our contribution is one that you will be extremely proud to work with if you haven't done so already. And these people that we're singling out tonight have already made that contribution to the point that you are proud of them and you're recognizing them.

I can say to you that I, as a Guardsman and as a representative of the Reserve, and those here, thank you for that mission that you've accomplished.

One other thing that I'd like to point out about New Mexico before I turn this over to the awardees. This is an Army National Guard unit we're honoring tonight. Last year, similar accolades were given to the ANG A-7 unit that deployed to Egypt. So I think that **General Miles** and

his people in New Mexico certainly have something going well for them in the Reserve Components. Thank you for this opportunity.

## REMARKS OF MAJOR GEORGE B. FAULHABER, COMMANDER, 717TH MED DET (HEL AMB), NMARNG:

"Before I say, 'Thanks,' I really want to express my appreciation to the AAAA for the hospitality it's extended to us. This is my first exposure to the Ass'n, and I really do want to say, 'Thank you.'

It's been a super three days in St. Louis, and you've been super. The city has been a great experience for wife and myself and for my First Sergeant standing here with me.

It is indeed an honor to accept the award for the 717th, and **Sergeant First Class Nancy Reutner** and I really want to convey our sincere appreciation to the Ass'n for the award, and I say "Thank you" for the entire unit.

The 717th worked hard over the last year, participating in a lot of exercises. We've done a lot of hard training. We've learned a lot over the years. So the award, for us, has been a learning process as well as a process of recognition.

## Two goals

In September 1980, we established two goals for the unit. The first one, of course, is combat readiness. The motto of the Health Services Command is "**To Save A Life.**" We adopted that fully and did our training with that in mind.

We also said we wanted to become one of the best aeromedical evacuation units in the USA. Tonight, we're being recognized as an "**Outstanding Aviation Unit**" — one of the very best in the Reserve Components — and, to the Association, I say, 'Thank you' for that.

ABOVE—Shown l-r are SFC Nancy Joy Reutner, Senior NCO; MAJ George B. Faulhaber, Unit Cdr; MG Charles Kiefner, Adjutant General, State of Missouri; and LTG M.C. Ross, Deputy Commander, USA Forces Commander.

We became a travelling club over the last year, venturing out of New Mexico's desert to train in the Pacific Ocean where we became overwater rescue-qualified — something that was different from the sands and wind that we normally experience. We operated above 12,000 feet in our mountains, doing our normal state functions and state duties, making rescues at 12,000 feet.

I do have to say the unit is now mission-ready. I feel we can perform our combat mission just about anywhere in the world. And in gaining that success I would like to recognize **Major Charlie Huggins**, who is in the audience tonight, and **Sergeant First Class Dan Mitkiff**.

Thank you both. You've done a super job for us. Again, without those two people, a lot of the goals the unit set over the last year would not have been achieved.

Again, on behalf of the members of the 717th, I say "Thank you very much" for this outstanding award and "Thanks, AAAA!" for the hospitality shown to us here at the convention.

# Army Aviator of the Year Award

I'm delighted to be able to present this award because in this grouping of professionals we are here to recognize a true professional. This award really is the "Oscar" of the Association.

As you know, **Chief Warrant Officer George Chrest** is a pilot in D Troop in the 1/9th Cav, First Cavalry Division, at Fort Hood, Texas. As such, he's an operational scout pilot. He is joined here tonight by his wife, **Sandra**, and his father, **Russell**. **George** is from Boise, Idaho, and attended Boise State College.

Now, his award was given to him merely because he happens to be the **World Champion Helicopter Pilot**.

He won this award on the 11th and 12th of August 1981 in Poland, and placed first out of 39 crews from six different nations. He scored a total of 761 points out of a grand total of 800. He beat the second place man by 11 points and his deviation from a perfect score was .6 of a second. He almost had a nearly perfect score in all the events in which he participated.

Ladies and gentlemen, **George Chrest**.

---

## REMARKS OF CWO GEORGE D. CREST, D TROOP, 1/9 CAV, 1ST CAVALRY DIVISION:

Needless to say, I'm deeply honored and very flattered. Approximately nine months ago I was sitting in a briefing room with 15 of the finest aviators in the

---

### JOINT AWARD

At May 7 ceremonies held at the 1982 Annual Forum of the American Helicopter Society in Anaheim, CA, CW2 George D. Chrest and CPT Stephen G. Kee, of Ft. Ord, CA, the world's No. 1 pilot/co-pilot team in 1981, were joint recipients of the Society's prestigious Frederick L. Feinberg Award.

Army, and I remember sitting there thinking to myself, "Here are 15 World Class Competition aviators. If I can hang in there with this bunch and compete with these guys I'll probably be able to go to Poland and do all right."

CW2 George Chrest is flanked in a post-Banquet photo by his father, Russell, and his wife, Sandra.

We trained very hard for three and a half months, and the rest is history. I'd like to recognize certain individuals and publicly thank them at this time. No. 1 is most certainly my wife who supported me through the entire process. She also supported the Team.

The other half of my individual flight team, **Captain Stephen Kee**. This man is unparalleled in his dedication to professionalism. My two immediate commanders, then and now, **Major Arkler** and **Major Bauers**, particularly the latter whose support is evidenced by his participation in this forum. My squadron commander, **Lieutenant Colonel Malcolm S. Gilchrist**, a true cavalry officer and gentleman. **General Richard D. Lawrence**, the 1st Cavalry Division commander. I don't remember when I've met a finer gentleman.

**General Ellis Parker**, who supported the Team from Day 1, and, sir, I'm cer-

tain you had some rocky roads behind closed doors up there. And at Ft. Campbell, the 2/17th Cav and the 101st Airborne for all their logistical support.

And, most definitely, you people, the Army Aviation Association of America, who really got behind our quest for the Championships early and helped spur us on and push us over the top.

Having had the luxury of seeing and flying with the best aviators from many other countries, I feel that I can stand here and tell you that U.S. Army Aviators definitely set the highest aviation rotorcraft standards, standards to which the rest of the world will now measure themselves.

**ABOVE—CW2 Chrest and LTG Jack V. Mackmull, Commander, XVIII Airborne Corps and Ft. Bragg, pose with the AAAA's "Army Aviator of the Year Award" at the '82 Awards Banquet.**

In this room are the people who have molded Army Aviation, and you've molded the best rotorcraft pilot force in the world to date. You indeed have reason to be very proud of yourselves, and to share in the Team's accomplishment.

I'm deeply honored to be the recipient of this award because it is being presented to me by such a prestigious group of people. Thank you very much.

# Aviation Soldier of the Year Award

**L**ADIES and Gentlemen, I am triply honored tonight. First I'm honored to be up here at the Head Table and be able to participate in this awards ceremony.

Secondly, I consider myself singly honored to be able to present the award to the **Army Aviation Soldier of the Year**. I know I don't have to tell any Army Aviator in the audience tonight how much reliance and trust we have placed over the years in the enlisted member of our team. We've placed our professional careers in their hands and, more importantly, our lives.

Finally, as **President Marr** indicated, I'm especially honored to be able to present the award to one of my own soldiers.

## A 14 year veteran

And so at this time I'd like to ask **Staff Sergeant William G. Patterson** to please stand behind me here. Before I say anything else, I want to ask your sympathy and forbearance. We're both quite nervous up here tonight. As a matter of fact, we're so nervous that we couldn't finish our dinners. I finished all of mine, but I was only able to eat half of Bill's.

Sergeant Patterson is a 14 year veteran. He and his wife, **Rebecca**, have three children. I'd like to ask her to stand please and be recognized.

As I said, **Sergeant Patterson** joined the Army some 14 years ago and came in first as an Engineer, but changed over about eight years ago to Army Aviation and has served in that capacity since. He holds an extremely responsible position, being the maintenance supervisor for one of the finest helicopter ambulance detachments we have in the Army today.

He supervises some 40 other maintenance personnel and is responsible for the outstanding record that they have achieved over this past year that he has held the job.

I am especially honored to present this award to him tonight and I ask you all to join me in congratulating **Sergeant William G. Patterson, the Army Aviation Soldier of the Year for 1982**.

**Remarks of Staff Sergeant William G. Patterson, 54th Medical Detachment (Hel Amb), Ft. Lewis, WA:**

Ladies and Gentlemen, I apologize. I am at a loss for words but I do thank you very much for honoring me with this Association award.

## OUTSTANDING UNIT

(Continued from Page 8)

brilliant futures in the Army. You need to watch them go up. No. 1, **Major Ken Jacobs**, kept the communication lines open at DA, ran interference for us, and relieved a lot of pressure and a lot of harassment many times when we were not able to do it for ourselves, being down at Fort Campbell.

The second is our Executive Officer and translator, **Major Bruno Maca**, who emigrated to the U.S. when he was 15,

and went back to Poland for the first time with the team.

In undertakings such as this, and I consider this one to be a big one, without personal friends and real professionals like these people I've just mentioned backing you up, it would have been just totally impossible.

In August, after the Championships, 35 Army personnel stood at attention in uniform and heard the Star Spangled Banner played as the American flag was raised, and it was announced that we were the World Champions. That was a

**A FT. LEWIS DUO** — Staff Sergeant William G. Patterson, the 1981 "Aviation Soldier of the Year", and Lieutenant General John N. Brandenburg, right, his Post Commander and the Award presenter, hold the impressive AAAA trophy.

great honor and we were very proud to be there.

In November, we were addressed at an awards ceremony by the Secretary of Defense, and were given awards by the Secretary of the Army. Again, that was a star-studded event. In March, a permanent exhibit was opened at the Smithsonian covering the Fourth World Helicopter Championships. That was a great honor.

But I tell you from the bottom of my heart, the greatest honor that this team has received, and the team members

agree with me, is to be recognized by your peers, and that's happening tonight. Thank you very much.

---

### **NOT ENOUGH SPACE!**

**And not enough time!** We apologize for omitting photo coverage of the '82 presentation of the AAAA "Special Award" to the Applied Technology Laboratory. It will be covered in the June 1982 issue to follow as will be an in depth photo story on the professional and social sides of the AAAA's 1982 National Convention.
